# Flat Matte Finish Cleaner

## Contains no wax or silicone!

Flat and matte finishes contain microscopic imperfections that refract light, decreasing the amount of shine that the finish gives off. Regular waxes and treatments fill in these imperfections and cause the finish to look uneven and splotchy.

Flitz Flat/Matte Finish Cleaner contains no waxes or fillers. In fact, our product removes the residue other waxes and treatments leave behind and restores the pristine flat/matte finish you love!
